MARBLE RESTORE KIT

The Marble Restore Kits are great for the restoration of the polishing on marble ruined by scratches, corrosion, incrustation due to wear or other agents such as limestone and acidic substances. The methods of intervention are very basic and do not require the use of power tools, but only manual job. There are no specific skills or competencies required to achieve professional results.

The Marble Restore Kits can also be used to restore the polishing after repair work that led to the grinding of a part of the surface.

81001 MARBLE RESTORE KIT blister pack

This is the basic version and the more spartan. This pack contains: 1 set of 4 plates diamond grits, 1 velcro pad, 1 bag of 50 grams of marble polishing powder, 1 instructions sheet. Yield: up to 1 square meter of restoration and polishing of marble.

81004 MARBLE RESTORE KIT DELUXE cardboard box package

Most complete and comfortable. This pack contains: 1 set of 4 plates diamond grits, 1 velcro pad, a bag of 100 grams of marble polishing powder, 1 polishing cloth, 1 pair of gloves, 1 instruction sheet for use. Yield: up to 2 square meters of restoration and polishing of marble.

81002 MARBLE RESTORE KIT PLUS cardboard case package

Full version as the Deluxe, but packaged in oval cardboard case, great for postal service shipments.
